

## The Contemporary Internet

---

By Leslie Haddon

Peter Gmbh Lang Mrz 2011, 2011. Buch. Condition: Neu. Neuware - The contemporary internet focuses on user experiences of more recent developments on the internet, specifically with the spread of broadband, the audio-visual applications it has enabled, Web2.0 uptake more generally and the growth of eGovernment. The Contemporary Internet is comparative in two senses. The first is at the cross-national level, examining factors affecting different countries' experiences of the internet, with a particular, but not a sole, interest in what may be termed 'cultural influences on perceptions, adoption and use'. Second, the book is comparative within countries, examining the, sometimes very, uneven experiences of the internet's possibilities. One question that pervades several chapters is how the digital divide is evolving in the light of the more contemporary developments outlined above. 210 pp. Englisch.

### Reviews

*I actually started looking over this publication. It really is rally interesting throgh studying period. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Dana Hintz**

*Good electronic book and valuable one. It really is basic but unexpected situations in the 50 percent in the pdf. You wont really feel monotony at at any moment of your time (that's what catalogues are for concerning when you ask me).*

-- **Elisa Reinger**
